Abstract (en)

[origin: WO2010000843A1] A safety system (1) for avoiding wrong use of a medicine (2) with the aid of an applicator device (4) consisting of an RFID system of reader (5) and transponder (3) which are alternately assigned to the applicator device (4) and to the medicine (2). A use of the applicator device (4) or the removal of the medicine (2) from the package for use with the applicator device (4) is only possible when clearance is granted by the RFID system.
