Abstract (en)  
[origin: WO2009147159A1] The invention (20) relates to a connector with a modular construction. In order to achieve the highest possible channel density, inserts (1, 14) are arranged to form a stack-like composite and then inserted into a housing (21). The inserts (1, 14) are operatively connected to one another via operative connection means (17, 18).
