Abstract (en)

[origin: EP2299017A2] The multi-piece framework is provided with a lower part (1), and an upper part (2), where the upper part and the lower part are connected together in detachable manner, such that an area is arranged between the upper part and the lower part for supporting a joint tape. The lower part comprises lower bracket (5) extending transverse to both sides of the construction joint. The joint strip (3) is mounted at the lower or the upper bracket by clamping with the help of mounting units and the lower framework unit (6). The upper framework unit stays in contact with the joint strip.
