Abstract (en)

Fitting (1) for the installation of elements of a fencing span constructed of metal rails and beams made of closed or open sections with an arbitrary cross-section, made of plastic or aluminium and having the shape of a closed or open section. On one of its ends it has a flange (2) and at least one springy external catch (3) and at least one springy internal catch (4). The springy external catches (3) are used to fix the position and lock the fitting on the transverse beam (5), and the springy internal catch (4) is used to fix the position and lock the rail (6) in the fitting (1).
