Abstract (en)

[origin: WO2009132851A1] The invention relates to a movable device having a removal device for removing at least a portion of the filling material on an artificial turf field, said material optionally being mixed with particles, wherein the device has a separating unit for separating the particles from the filling material. The invention is characterized in that the separating unit has a variable, particularly continuously variable, separating measure for the separation of the particles from the filling material.
