Abstract (en)
[origin: WO2010001130A2] The present invention relates to a pouch for storing and transporting machine- readable discs which may be used numerous times and which protects the contents of the sleeve from breakage and abrasion, which comprises a first and second layer of flexible material and a third layer which comprises a non-abrasive material; wherein the third layer of non-abrasive material is interposed between the first and second layers of material; and wherein the first and second layers and the non- abrasive layer are connected to form a pouch, also claimed is a method of preparing a sleeve or pouch for use in storing and transporting machine-readable discs.
