Abstract (en)
[origin: WO2010142314A1] The invention relates to an integrated hydride/air accumulator comprising an air electrode (1), a hydride accumulator (5), and a counter electrode (7) that is conductively connected to the hydride accumulator (5). At least the hydride accumulator (5) is in contact with an electrolyte (9), an ionically conducting membrane (3) being arranged between the air electrode (1) and the counter electrode (7).
