Abstract (en)

[origin: EP2301882A2] The industrial lorry has a frame (1) covered with a cover part that is equipped with control and/or display elements. The control and/or display elements is accessed in the cover part by openings or stuck out from the cover part. A component carrier (2) is connected with the frame and includes a bearing recess (3) and an attachment portion (4) for attaching the cover part and the control and/or display elements. Two brackets are rotatably mounted in the bearing recess, and an emergency switch (7) and/or battery plug connector are arranged on the component carrier.
