Abstract (en)

There is provided a bag and seat means combination. The bag includes a first portion (4) which is movable relative to at least a second portion (6) between closed and open positions. At least one of said portions forms a base or back of seat means when in said open position. Inflatable means (22,24) are located or locatable with the base and/or back of said seat means and the inflatable means (22,24) can be inflated in use to form at least part of a cushioned base and/or back to said seat means.
