Abstract (en)  
[origin: WO2009140494A2] A drip tube (18) has a generally horizontal section (20), a generally vertical section (24) and a drip loop (22) connecting the sections. The drip loop (22) is positioned so that its exterior surface (28) is lower than the exterior surfaces of the generally horizontal section (20) and the generally vertical section (24) at the points where they meet the drip loop (22) to provide a location where water may drip.
