Abstract (en)

[origin: EP2312043A1] The machine (1) has a body (2) enclosing a washing tank (3), and a washing and/or rinsing water reservoir (6) provided with a vent device (26). The vent device includes a connecting pipe (21) connected to an upper portion of the reservoir and connected to a part (14a) of a valve (14). The part of the valve is connected to a water drain pipe (8) of a hydraulic water distribution circuit to drain water towards an external wastewater system (13). The reservoir is arranged external to the body of the machine.
