Abstract (en)

[origin: EP2312046A1] The drier has an operating device designing an operating lever (7) that is arranged on a washing line support shaft (4) of a spreader frame (2). The spreader frame is lifted and opened at a lower end of the spreader frame. A towing device is provided on the support shaft and is supported by swing up of the operating lever, where the support shaft is supported by the operating lever. The towing device includes a tow cable (10) that is extended away from top side of the operating lever and is coupled with the operating lever and a gas spring (11) that is fixed on the support shaft.
