## Abstract (en)

[origin: WO2010007179A1] The present invention relates to compounds of Formula (I) below, to their pharmaceutically acceptable salts and to their isomers or mixtures of isomers: HetAr-X-CHR1R2 (I) in which: - HetAr represents a group chosen from: - X represents a linear, saturated or unsaturated, hydrocarbon-based chain comprising from 8 to 22 carbon atoms, optionally interrupted by an -NH- or -NH-CO- group, - R1 represents a hydrogen atom or an -OH, -O(C1-C6)alkyl, -OCO((C1-C6)alkyl), -OSO2((C1-C6)alkyl) or -OSO3H group, and - R2 represents a hydrogen atom or a (C2-C6)alkynyl, (C2-C6)alkenyl or (C3-C6)cycloalkyl group. The present invention also relates to a process for preparing the compounds of Formula (I), and also to the use thereof, especially in the treatment of neurodegenerative diseases.
