Abstract (en)

The device has a power connector per cold device-plug connector, and an adapter that is optionally pluggable for realizing a fixed connection, where the device is formed as a closed unit in a housing. The device is detachably mounted in a door drive. An exchangeable plate and an exchangeable transformer are electrically connected with each other by a cable loop, where the plate comprises a control of a drive light and/or a primary transformer control. The housing exhibits an eye shaped retainer for retaining a protective conductor.

Abstract (de)

Die vorliegende Erfindung betrifft eine Trafovorrichtung für einen Torantrieb, wobei die Trafovorrichtung als geschlossene Einheit in einem eigenen Gehäuse ausgeführt ist und in einem Torantrieb lösbar montierbar ist.
