Abstract (en)
It presents a body (1) in the form of a hood. with suitable diameter and configuration for adapting to the top (2) of a can (3) of drink, and a cylindrical skirt (7) with an interior section that fits with the peripheral projection of the can. The skirt has a screw thread (10) for its mating and a cylindrical projection (12) intended to be positioned on the top of the can. It is completed with a exterior cylindrical thread of mouth (14), with a conventional closing stopper (15).
