Abstract (en)

[origin: EP2316767A1] The method involves subjecting pressure product (2) hitting on a pile edition (13) with a lower edge (3) within the range of its lower edge by a promotion device (16). The pressure product moves with a speed in feed direction (12) of a pile (7), which corresponds to feed speed of the pile. An independent claim is also included for a device for manufacturing piles of pressure products.
