Abstract (en)  
[origin: EP2317047A2] The fitting assembly has a faceplate, a connecting rod and a blocking device (10) arranged relative to the faceplate. The blocking device has an elastic locking element (12) and is mounted at the face plate or the connecting rod. The locking element is displaced between a blocking position and a releasing position. The locking element is in contact with a counter lock in the blocking position.
