Abstract (en)
The vehicle (1) has a luggage compartment (2) with side walls, and a information reproducing device for reproducing information and including a screen (3) for reproducing the information. A control unit (4) controls the screen. A region forms one of the side walls and a part of the screen. The screen is luminescent, and includes radiating light units i.e. LEDs. The screen is provided at the side walls oriented parallel to driving direction. The information reproducing device is operated in standing state and driving state.

Abstract (de)
Die Erfindung betrifft ein Nutzfahrzeug 1, insbesondere einen Lkw, mit einem seitlich montierten LED-Bildschirm 3.
