Abstract (en)

The module has a multi-antenna arrangement provided with a global positioning system antenna (24), a cellular antenna (26) and two vehicle-to-vehicle (V2V)- and/or infrastructure-to-vehicle (I2V) antennas (28, 30). A signal processing unit (34) is attached to one of the antennas in the arrangement. The V2V and/or I2V antennas are spatially arranged at a distance from each other for utilization of antenna diversity. The arrangement is designed for multiple input multiple output (MIMO) communication connections.

Abstract (de)

Ein Multistandard-Antennenmodul für Verkehrstelematiksysteme umfasst wenigstens eine GPS-Antenne, wenigstens eine Zellularantenne und eine wenigstens zwei V2V- oder I2V-Antennen umfassende Mehrantennenanordnung sowie vorzugsweise eine den Antennen zugeordnete Signalverarbeitungseinheit. Dabei sind die V2V- bzw. I2V-Antennen der Mehrantennenanordnung zur Nutzung einer Antennen-Diversität räumlich entsprechend voneinander beabstandet.
