Abstract (en)

[origin: WO2010026334A1] Oil production floating support (10) comprising a device (1) for fastening tethers providing anchorage to the sea bed and pipes providing the connection between the sea bed and the surface (14), comprising two anchoring buoys (1-1,1-2) to which the said tethers (13) and the said pipes (14) providing the connection between the sea bed and the surface are respectively anchored, the said two anchoring buoys being connectable to and disconnectable from a drum (2) under which they are fixed, independently of one another.
