Abstract (en)
[origin: WO2010023086A1] An interior lighting of a refrigerator comprises at least one illumination means (11) and a fiber optic (12) for transferring light from the illumination means (11) to the interior space. The fiber optic (12) comprises a transparent flat member (16) that extends along a wall (6) of the interior space, and a plurality of coupling-out structures (17) distributed at the member (16).
