Abstract (en)  
[origin: US2010116839A1] A roller storage system is described consisting of a storage roller (200) for storing banknotes, where the storage roller (200) is operated in a money processing system. The roller storage system is characterized in that the system comprises a container (100) in which the storage roller (200) is disposed, the container (100) has at least one means that enables the guided insertion of the container (100) into the money processing system and/or the guided removal of the container (100) from the money processing system.
