Abstract (en)

[origin: WO2010015395A2] The invention relates to a device (1) for processing valuable documents, particularly bank notes, and to a method for operating a device (1) of said kind. The device (1) comprises a plurality of processing zones (2, 3, 4, 5, 11, 12, 13), for example an input module (2), an operating module (3) and an output module (4). Furthermore, the device (1) is designed to detect events in the processing zones (2, 3, 4, 5, 11, 12, 13) that require operating personnel to intervene. Each of the processing zones (2, 3, 4, 5, 11, 12, 13) comprises a cover (6) that is automatically opened as a function of such a detected event without the operating personnel having to intervene.
