Abstract (en)
[origin: WO2010023152A1] The invention relates to an electric device, in particular a locating device (12), comprising an LCR antenna apparatus (14) comprising an antenna unit (16) that has a first polarization direction (18) and that is adapted to transmit and/or receive a measurement signal using the first polarization direction (18). It is proposed that the antenna unit (16) comprise at least a second polarization direction (20) for transmitting and/or receiving the measurement signal.
