Abstract (en)
An arrangement for furring of window sections, where a complete furring arrangement (1) is constructed of an architrave (2) standing against a window frame (3) and where the same architrave is used apart from if the window frame is provided with a furring groove (10) or not and where the architrave is fixed against the wall construction with alternatively designed clips (5, 18) fastened against the architrave with legs (21) provided with barbs that are pushed into grooves (17) and where the clips thereafter are screwed or in another way fastened against a wall (4) or a stud construction (6) and where the surface of the finished architrave is not influenced in connection with the assembling work.
