Abstract (en)

[origin: WO2010025826A2] The invention relates to a pressure control member (1), in particular a ventilating valve for ventilating a microdispenser, having an inlet for the feed of a fluid and an outlet for the discharge of the fluid, wherein the pressure control member (1) adjusts a specified holding pressure at the outlet, while the holding pressure at the outlet is less than the pressure at the inlet by a specified pressure difference.
