Abstract (en)
[origin: WO2010015393A1] The invention relates to a plastic clip (20) for the attachment of an object (12) in the region of a front (16) of a flat workpiece (14), comprising a base section (22), the shape of which is adjusted to the front (16), a first and a second arm (24, 26), which extend from the base section (22) and together with the base section (22) form a U shape, and a mounting section (38) that is connected to the base section (22) and configured to mount the object (12) to the clip (20), wherein the arms (24, 26) can be elastically spread out in order to receive the workpiece (14) between the interiors (30, 32) thereof, wherein the base section (22) and the arms (24, 26) are made of a first, relatively hard plastic material, and wherein an anti-slip section (34, 36; 60) made of a relatively soft plastic material is provided on one of the interiors (30, 32).
