Abstract (en)  
A terminal fitting (10) has a terminal connection part (11) formed at a front part thereof and connected to a mating terminal; and a crimping part (12) formed at a rear part of the terminal fitting (10) and composed of a lower plate part (21) continuous with the terminal connection part (11) and a pair of crimping pieces (22) raised from left and right side edges of the lower plate part (21). The crimping part (12) is crimped with an end portion of an electric wire (30) being surrounded with the lower plate part (21) and a pair of the crimping pieces (22) to crimp the terminal fitting (10) to the end portion of the electric wire (30). Each of the crimping pieces (22) has a thin portion (24) formed thinner than the lower plate part (21) and contacting the end portion of the electric wire (30) when the crimping pieces (22) are crimped.
