Abstract (en)

[origin: WO2010020541A1] The invention relates to a cooking hob device with a monitoring unit (26) for monitoring at least one cooking region (16) of a hob (10), with at least one sensor unit (28), provided to record in the Infra-red region. According to the invention, low production costs and a space-saving design may be achieved, wherein the sensor unit (28) has a number of Infra-red sensors (36), arranged in a sensor field (38).
