Abstract (en)

[origin: EP2327928A1] The holder (10) has a fastening element and a fastening device (11) for fastening a fan (20) and the holder in inner region of a lighting device, respectively. The fastening device has a through-hole (12) with an internal thread for receiving a fastening screw (13), and a blind hole with or without an internal thread, and a guiding device (14) for guiding the screw. The guiding device is detachably fastened at the holder by a film hinge or by locking elements (15). The through-hole is arranged in a slanting position to the blind hole. An independent claim is also included for a lighting device for a vehicle.
