Abstract (en)

A terminal (120) includes a data receiver (121) that receives data transmitted by a base station (110) to another mobile terminal (130), a response receiver (123) that receives from the other mobile terminal (130) a negative acknowledgement response indicating that the other mobile terminal has failed to receive the data normally, and a data transmitter (124) that transmits to the other terminal (130) the data, received by the data receiver, in response to the negative acknowledgement response received by the response receiver (123).
