Abstract (en)
[origin: WO2010037903A1] The present invention concerns a grain composition for the manufacture of a concrete mass, consisting of granules, each of which contains filler particles, to the surface of which hydraulic binder particles have been attached. The invention also concerns a method as well as equipment for manufacturing the composition as well as a concrete or mortar mass, which contains said composition, and a method for manufacturing this concrete or mortar mass.
