Abstract (en)  
[origin: WO2010025831A1] Disclosed are heterocyclically substituted anilinopyrimidines of formula (I), in which R1 to R10, L1, L2, E1, E2, E3, Y, and Z have the meanings indicated in the description, agrochemically effective salts thereof, the use thereof, methods and agents for controlling plant-pathogenic fungi in and/or on plants or in and/or on plant seeds, methods for producing such agents, treated seeds, and the use thereof for controlling plant-pathogenic fungi in agriculture, horticulture, and forestry, for protecting materials, and in households and hygiene-related domains. The invention further relates to a method for producing heterocyclically substituted anilinopyrimidines of formula (I).
