Abstract (en)
[origin: WO2010018444A2] The present invention relates to vectors and compounds for the expression of recombinant soluble proteins. More particularly, the present invention relates to nucleic acid molecules, expression vectors, and host cells for the expression of recombinant soluble Tumour Necrosis Factor Alfa receptor (TNFR) - Human IgG Fc fusion protein. The invention further relates to methods for preparing recombinant soluble Tumour Necrosis Factor Alfa receptor (TNFR) - Human IgG Fc fusion protein using the host cells transfected with the expression vectors.
