Abstract (en)
[origin: WO2010031676A2] The invention relates to a fixing device (200) for fixing in an opening in a wall of a vehicle, said fixing device (200) having a support element (210) with at least one support lug (220). The fixing device (200) also comprises a retaining element (230) with at least one retaining arm (240) for fixing the fixing device (200) to the wall. To fix the fixing device (200) in relation to the support element (210), the retaining element (230) runs through the support element (210) and can rotate it the latter, the support lug (220) being designed to block the rotation of the support element (210).
