Abstract (en)
[origin: WO2010034833A1] Structure of a stove, where the structure (1) is made up of interchangeable elements, which results in formation of a modular structure that can be employed in different models of stoves, these elements being: - four vertical profiles, two frontal (2) and two rear (3); - three frontal vertical cross bars, two of which, (4) of approximately twice the height of the third (5); - two lower horizontal profiles (6), that establish structural tying-in of the respective vertical frontal (2) and rear (3) profiles; - two vertical lateral panels (7), and two other lateral vertical panels (8), of approximately half the height of the panels (7); - one rear panel (9) and one more rear vertical panel (10), of approximately half the height of the panel (9); - four horizontal panels (11) and (12); - one lower horizontal panel (13); and - one rear vertical panel (14).
