Abstract (en)
Refrigerator ice cream showcase with reduced energetic consumption and with increased protection of the contained products, is provided with two thermo-insulating transparent panels (7) and (8) placed above basins (4) and (5), to which may be extended in order to cover the whole refrigerated place or superimposed towards the external edge to free the basins internal row and in this position, if required, can be raised by rotation, to keep accessible all the basins. The movements can be manually impressed or by motor means or actuators means.
