Abstract (en)

[origin: EP2336034A1] The apparatus is provided with a film supply for the films (2,3), a film feeding head (4) for supplying the films and a pulling device (5) to pull the films for the stack of goods (1). The films are conveyed from the film supply to film feeding head. The film storages (15,16) are provided between the film supply and film feeding head for receiving the film. An independent claim is also included for a method for operating a wrapping apparatus.
