Abstract (en)
The present invention relates to a packaging for a frozen confectionery comprising a sleeve (10) and a lid (20), characterised in that the lid (20) is provided with a circumferential fastening zone (22) comprising a first surface (24) resting against the inner surface of the sleeve (10) in a region adjacent to its open end, and a second surface (26) obtained by folding down of a radially outer zone of the lid and resting against the outer surface of the sleeve in that same region.
