Abstract (en)

[origin: EP2336468A2] The fitting set has a running component (5) for a rear sliding door wing (6) and another running component (8) for a front sliding door wing (9). Each running component has a roller support (5a,8a) and an activator (10). The activators are made of plastic. The activator of the rear running component is arranged at the roller support by a catch mechanism.
