Abstract (en)
The present invention relates to a refrigerating appliance (1; 1'), in particular for household use, comprising: - at least one internal compartment (10; 10') for preserving foodstuffs; - at least one shelf (20; 20') for supporting the foodstuffs to be preserved in said at least one internal compartment (10; 10'). The invention is characterised in that said refrigerating appliance (1; 1') comprises a housing (30; 30') adapted to house said at least one shelf (20; 20') in a manner such that said at least one shelf (20; 20') is retractable and can be placed in the following conditions: - at least one operating condition, wherein foodstuffs can be laid onto said at least one shelf (20; 20'); - an idle condition, wherein foodstuffs cannot be laid onto said at least one shelf (20; 20').
