Abstract (en)
[origin: WO2010022435A1] A one-handed keyboard for a hand held computer device including an array of keys representing characters of an alphabet of a language, wherein the array includes keys representing frequently used vowel characters of said alphabet arranged together in series; keys representing frequently used consonant characters of said alphabet arranged adjacent to said keys representing vowel characters; and keys representing infrequently used consonant characters of said alphabet arranged in positions remote from said keys representing vowel characters, wherein the keys representing frequently used consonant characters are arranged in a relational order around the keys representing the vowel characters.
