Abstract (en)
[origin: EP2338650A2] A power tool storage case 1 for storing an electric power tool comprises: a main body casing 2 having a storage portion 4 configured to store an electric power tool; a lid member 3 hingedly connected to the main body casing 2 and capable of opening/closing the storage portion 4; a sub-storage portion 13 provided at an outer surface of the lid member 3; and an outer lid 14 hingedly connected to the lid member 3 and capable of opening/closing the sub-storage portion 13. In this storage case 1, a locking portion is provided on the outer lid 14 so that when the sub-storage portion 13 is closed by the outer lid 14, the locking portion is moved to an engagement position at which the locking portion is engaged with an engageable portion provided on the lid member 3. The locking portion is movable from the engagement position to a disengagement position at which the locking portion is disengaged from the engageable portion.
