Abstract (en)

[origin: EP2338811A1] The container comprises a vertical body (1); a front door (4) located on one of the longitudinal faces adapted to give access to the interior of the container, be able to clean it and introduce a waste collection bin inside; a hinged trap door (6) where through a user partially introduces their tray, tipping it over to throw away the food leftovers generated, said container having a pedal mechanism (7) intended to be actuated with the foot of a user who is holding a tray, by means whereof it is possible to open the trap door (6) without having to use their hands.
