Abstract (en)
[origin: EP2339242A2] The appliance has a utilization chamber closable by a door (2), a control panel (6) and a filling container (20) for operating liquid. An inlet opening (14) for the filling container is arranged at a surface of the control panel. The filling container has an outlet that is coupled to the inlet opening, where the filling container is detachably fastened at the control panel by the outlet and a fastening part that is formed as a magnet. The inlet opening has a surface that is smaller than 100 square mm. The control panel exhibits a light source (18) for introducing light into the container.
