Abstract (en)

[origin: EP2339290A2] The telescopic sight mounting system (3) is provided with a fire arm (1) and the telescopic sight (2) arranged in an axial direction in the desired position, where a swivel base is attached to the telescopic sight. A swivel receptacle is arranged on the fire arm or vice versa. The swivel base and swivel receptacle together form a pivot joint. A clamping element is so formed that the contact surface or the clamping surface is formed or arranged resilient.
