Abstract (en)

[origin: WO2010037560A1] The present invention relates to a detergent additive, particularly for improving the softness of textile products, which comprises at least the following components: a) at least one clay mineral; and b) at least one N-vinylpyrrolidone copolymer, wherein the at least one N-vinylpyrrolidone copolymer comprises N-vinylpyrrolidone monomer units and cationic monomer units. The present invention further relates to a method for producing the detergent additive, and to the use thereof.
