Abstract (en)

Plant for the production of an emulsion of water in hydrocarbons, comprising: pump means (13;22) for the drawing and mixing in a first tank (16) of dosed amounts of an hydrocarbon, or of a mixture of hydrocarbons contained in a second tank (12), with an emulsifier contained in a third tank (18); pump means (22) for drawing and introducing dosed amounts of water, drawn from a fourth tank (6) in said mixture of hydrocarbons and emulsifier contained in said first tank (16); pump means (22) for pressure circulating many times said mixture of water, hydrocarbons and emulsifier from said first tank (16) through an emulsifier device (E) and from this again in said first tank (16) until obtaining a stable emulsion of water in hydrocarbons, and for transferring said emulsion from said first tank (16) until obtaining a stable emulsion of water in hydrocarbons, and for transferring said emulsion from said first tank (16) in a stocking tank (37) from which said emulsion may be drawn for the delivery to the users.
