Abstract (en)
[origin: WO2010034566A1] The invention relates to a hand-held power tool (1) which is equipped with an illuminating element for illuminating the working field. Said illuminating element comprises illuminating means (12) and a switch push-button (10) for activating or adjusting a drive motor (5) of the hand-held power tool and a component forms the illuminating element such that light beams emitted by the illuminating means (12) are guided over the switch push-button (10) to the working field (13).
