Abstract (en)
[origin: EP2343697A2] The label has a booklet i.e. information carrier in print format, which consists of several sheets, and a printed laminate coating, where the label is made of a pure composite material e.g. paper. The booklet and the laminate are made of a film. Silicon varnishing strips are provided in the label to open the laminate. A perforation is provided at the laminate during surface packaging. The laminate has partial recesses, which enable retroactive printing. The label has oval shape or ellipsoidal shape.
